
Presio

Present PDFs from your browser.

Two windows, one deck

- You drive the controller
- A viewer window mirrors it
- Or share a 6-character code

Your PDF stays on your machine

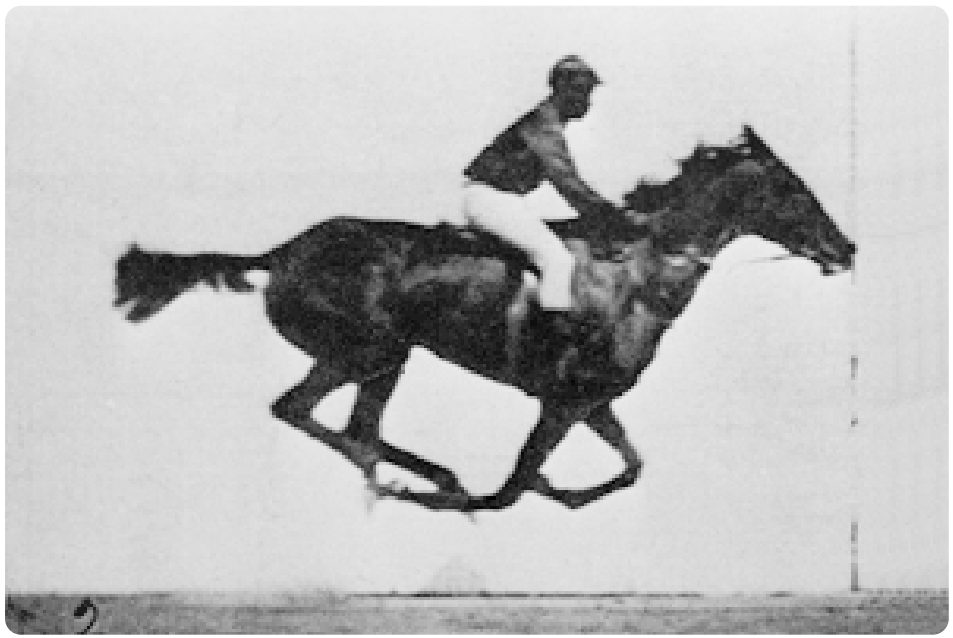

Local by default.

Share online only if you want people on other devices to follow along.

While you are talking

1. Laser pointer and annotations supported
2. Speaker notes beside the current and next slide
3. Timer; press j+<number> to jump anywhere
4. Embed notes and media in t or LaTeX

Video and GIFs, in sync
